Education

University of Engineering And Management Kolkata, Btech in Computer Science and Engineering(CS-BT-IOT) Aug 2022 – Expected 2026

- GPA: 8.12

Projects

Doc Book | Live Link | Github

Tech Stack: ReactJS, Redux, NodeJS, ExpressJS, MongoDB

- Developed a role-based appointment booking system for healthcare, streamlining online bookings for admins, doctors, and patients to improve efficiency.
- Achieved a significant reduction in manual errors and enhanced user satisfaction by automating appointment scheduling and ensuring a smooth, user-friendly experience across all roles.

Food WEB | Live Link | Github

Tech Stack: ReactJS

- Developed a feature-rich food delivery web application using React.js and Vite, ensuring a fast and responsive user experience for ordering food online.
- Deployed the application on Netlify, enabling seamless access to users while optimizing performance and reducing load times.

Blog | Live Link | Github

Tech Stack: ReactJS

- This is my own Website where i contribute my Projects.
